FORGERY AND PIRACY

PARRY AND CO.

Beg to caution the public that the TRADE MARKS of many of the Firms they represent are PIRATED and by this means SPURIOUS and WORTHLESS goods are foisted on purchasers, instead of the GENUINE articles

The SHAM labels are wonderfully well got up to fulfil their nefarious mission.

Some of them bear a forgery of manufacturer's signature, others have apocryphal signatures, one or two letters being altered in so artistic a manner as almost to defy detection. Whilst many bear NO NAME whatever, but in general appearance closely resemble the authentic labels.

We have taken LEGAL PEOCEEDINGS, and trust that the heavy penalties accorded under the Trade Mark Law will put a stop to FORGERY and PIRACY

The following particulars may prevent many from being duped by dishonest dealers as they will enable the purchaser to detect imitations, and insist on obtaining the genuine articles—

Crosse and Blackwell. Pickles

See that the well known white and gold arched top label bearing their name and address (21 Soho-Square, London) is on the bottle, and also look for the name and address on top and signature on side of capsule, without none are genuine.

JAMS and JELLIES of this famous brand also bear C and B's name on labels.

FRENCH CAPERS. Legitimate only when C. & B's name and address is found on label and capsule; avoid similar bottles which bear NO NAME on label or capsule.

Arthur Guinness Son & Co.'s Extra Stout

BEWARE of a very well executed and most dangerous imitation of the famous HARP LABEL. This even bears a FORGERY of GUINNESS' SIGNATURE as well as PIRACY of the TRADE-MARK.

PIG BRAND STOUT

None is legitimate without the signature of the proprietors (Messrs William Edmonds Jr & Co.) on capsule, their label on side and our RED and WHITE guarantee label as SOLE AGENTS on neck of Bottle.

Bull Dog, bottling of Bass & Co.'s Pale Ale

Genuine only when the bottle bears Messrs BASS & Co.'s world renowned RED TRIANGLE trade label on one side, Messrs. READ BROS.'S BULL DOG LABEL on the other and our RED and WHITE guarantee label as SOLE AGENTS on the neck.

Washington Morton and Alfred Morton & Co.'s

Celebrated WINES & FINE CHAMPAGNE BRANDIES. Every bottle of the genuine bears their name on capsule, cork and label, and our signature as SOLE AGENTS at foot of the latter.

Kimmel's Brown Windsor Soap

Each cake of the genuine has the maker's name moulded on one side and the words SOLE AGENTS PARRY & Co. Buenos Aires, on the other.

Lea and Perrins Sauce

The label on EVERY bottle of the genuine WORCESTERSHIRE SAUCE bears the signature LEA & PERRINS and OUR name amongst the list of WHOLE SALE AGENTS

Colman's Mustard, Corn Flour Blue, Starch

None of these are genuine unless they bear the BULLS HEAD Trade Mark. Inferior goods packed and labelled in a manner calculated to deceive, are freely offered in the most shamel ss manner. Ask for and see that you get J & J COLMAN'S genuine productions which all bear their name, Trade Mark BULL'S HEAD and our RED and WHITE guarantee label as SOLE AGENTS for this Republic.

Angostura Bitters

The market is INUNDATED with immitations, which are WORTHLESS and INJURIOUS. Every bottle of the genuine article bears on the neck our RED and WHITE guarantee label as SOLE AGENTS.

Epps's Breakfast Cocoa and Chocolate

Every packet of the legitimate article bears our RED and WHITE guarantee label as SOLE AGENTS.

Eugene Clicquot's Champagne

Each bottle of this renowned brand bears the registered trade label of the proprietor and our SIGNATURE LABEL AS SOLE AGENTS.

Old Tom Gin

Every bottle of BOORD & SON'S celebrated cordial bears their signature label and our RED and WHITE guarantee label as SOLE AGENTS.

Invalid Port

GREAT ATTENTION and care have been dedicated by Messrs BOORD & SON to this SPECIALITY, and we can confidently recommend it.

Fine Pale Sherry

Every bottle of BOORD & SON'S well know white label bears also our RED and WHITE guarantee label as SOLE AGENTS. As an agreeable light ECONOMICAL dinner wine, it is not to be excelled.

Lorne Whisky

Has an enviable reputation all over the world: every bottle of this PURE HIGHLAND WHISKY bears our RED and WHITE guarantee label as SOLE AGENTS.

Each genuine packet bears the signature of GEORGE NELSON and our RED AND WHITE guarantee label as SOLE AGENTS

Bumsted's Royal British Table Salt

This refined article is obtained from natural and pure brine springs and is vastly superior to the ordinary quality. Each bottle bears our RED AND WHITE guarantee label in the CENTRE of that of the manufacturer.

Anglo Bavarian Ale

VIENNA 1873, FIRST CLASS PRIZE GOLD MEDAL PARIS, 1878. To those accustomed to drink GERMAN ALE we strongly recommend this light and pleasant beverage.

Champagne Cider,

HENLEY & SON'S celebrated brand Each bottle bears the RED AND WHITE guarantee label as SOLE AGENTS.

Tea.

We guarantee all our brands PURE and of the VERY BEST QUALITY, and caution the public against receiving any boxes that have been OPENED and the LEADS CUT, as we know that our empty packages are REFILLED WITH INFERIOR MIXTURES and offered for sale as genuine. Each box bears our RED AND WHITE guarantee label.

Attention.

Notwithstanding the HEAVY PENALTIES inflicted by the Trade Mark Law, individuals will persist in FORGING the signatures and IMITATING the Trade Marks of CELEBRATED AND WELL-KNOWN manufacturers NON-RESIDENT in this country, whilst they are very chary and frightened of doing so in the case of a firm living on the spot. We therefore strongly advise the public to take the goods for which we are Agents ONLY when they bear OUR LABELS.

CORRIENTES.

In an exceedingly well-printed pamphlet published by Don Valentin Virasoro, Minister of Hacienda and Education in Corrientes, we find much useful information respecting that province, of which many in Buenos Ayres have but the most hazy acquaintance.

There was a period, and not very remote, when the editor of a daily paper in Buenos Ayres would think just as soon of treating his readers to one of Æsop's Fables as publishing a leading article about the province of Corrientes; but the growth of the country has burst the bonds of our city pavement, and we have survived the centralization epoch.

There is not a finer province in the great River Plate basin than Corrientes. At the early part of this century there were more English settlers in it than to-day; and so far back as the year 1810 enterprising Scotchmen made fortunes in its towns. One hundred and fifty years before an Englishman set foot in the province, the Jesuit Fathers, who were no mean judges, selected Corrientes for the fertility of its soil and the loveliness of its pasturages as the great field for their labours—labours that have left their landmarks in some of the most bewitchingly beautiful spots; and the traveller who crosses from the Upper Uruguay to the Upper Paraná comes upon the vestiges of the early Jesuit missions and discovers in their ruins remains of a civilization whose moral simplicity claimed even the admiration of Macauley.

There are few provinces that have suffered more from the 'gaucho' and the 'caudillo' than Corrientes; and perhaps it is to their empire we must attribute the fact that, whilst in the adjoining province of Entre Rios in almost every partido English estancias are met with, in Corrientes there are none, notwithstanding, that since the Spaniards set foot in this country, Corrientes has always enjoyed the name of being one of the richest cattle-farming districts in the Plate.

Within the last few years a slight change for the better has been noted in Correntino affairs. The Italians are pushing their way up into the country, and population has much increased along the Upper Paraná. The Minister says that in the year 1870 the population was 130,000 inhabitants, and to-day is 165,000. In the former year the estancias occupied an area of 3,600 square leagues and they now reach 4,000 square leagues, without including the yerbales and mountains on the north-east of the province. In 1870 there were but 21 departments against 24 now, and the expense of the Government was $f. 320,000 against half a million now. There were 265 policemen, vigilantes, and Serenos, against 615 now. There are 500 National Guards that cost the country nothing but their food. The total value of taxable property in the province is marked at forty millions; and the total taxation, Provincial and Municipal, is $f. 320,000, say much less than that of Buenos Ayres Entre Rios, Santa Fè and other provinces; and in only Europe Switzerland approximates, the taxation being about $f. 3 per inhabitant. In Buenos Ayres, Entre Rios, and Santa Fé the service of the public debt demands annually 40 per cent of their revenue; whilst in Corrientes its debt is so small that its service is met by a portion of the sales of public lands.

The Minister gives a list of 25 partidos, containing an area of 5,156 square leagues, of which but 1,765 leagues are private property and pay taxes; but he considers that 2,300 leagues are covered by private estancias; and the total area of estancia lands belonging to the Government is 3,391 leagues, of which 500 leagues are covered by the Iberá and other lakes, and that, not including the lands of the Altas Misiones, the Government holds only 1,291 square leagues in that district.

The Province of Corrientes, it is estimated, must have at least three millions head of horned cattle, since ie exports and consumes annually about 700,000 head. The number of estancieros has tripled since 1869, and large portions of the province that were formerly deserted are now covered with estancias, In the year 1869 there were in Misiones 239,515 head of horned cattle, against 800,000 now. There were then in the whole of the province but 1,732 estancieros owning 1,128,000 cows, against 15,000 estancieros now and 3,000,000 head of cattle; nevertheless, the revenue of the province declined in the year 1878, $f. 71,789.

The following is a summary of the Provincial Debt:—

	$ fts.
Bonds in circulation.....	130,000
Interest.....	12,000
Claims to be settled	175,550
Army debt, 1878.....	40,000
Due to Banco Nacional	65,874
Private loans.....	21,576
Total.....	445,000

Against this debt the Government holds 677,000 fts., pagares for land purchases, and 1,000,000 fts. in 'enfiteusis' lands, the leases of which expire in two years and another 1,000,000 in public lands unoccupied: and 1,500 leagues under yerbales, pine, cedar and quebracho forests. and most of these lands, owing to the liberality of the public law, will be settled on rapidly.

In December, 1878, the Government was obliged to make private loans, owing to the revolution, which stand as follows, and earn an interest of 15 and 18 per cent. per annum:—

	$ fts.
Mrs. Cabral	3,000
F. Cremont.....	4,000
Paul Guostavius	5,600
Augustus Miller	8,250
Total.....	20,850

Since November 1869 the Government has received 1,800,000 fts. for the sale of public lands, but in the year 1878, and the first half of 1879, only four square leagues have been sold, which is attributed to political troubles, but now the demand for public lands is increasing. The Government holds 600 square leagues in the most populous parts of the province, which it values at about 2,000,000 fts.

In looking over the list of public expenses we find that the Government spent last year, to foment immigration, the sum of 36 fts., and possibly this item may explain the neglected condition of this once thriving province. The working of the 'yerbales' has also declined, and we note that it pays a tax of seven cents. fts. per arrobe.

The following may interest many of our readers who think of purchasing some of those beautiful estancia lands in this fertile province. The law establishes the prices as follows:—

Lands between the Parana and Santa Lucia from 2,000, to 3.500 fts. per square league.

From the River Corrientes to Lake Ibera, from 2,500 to 4,000 fts.

From the Parana to the ruins of San Javier, from 3,000 to 4,500 fts.

Lands on the Arroyo Ita to Mirunga 2,000 fts.

From the Parana to the limits of Entre Rios 3,500 to 5,000.

Lands from San Javier to the Brazilian frontier 2,000 to 2,500 fts.

According to the Minister's estimates the districts of Mercedes, Curuzu and Cuatia are the chief sheep-farming districts of the province. But sheepfarming has very little hold in Corrientes, since we find that the total number of sheep is but 696,000, horses and mares, 447,000, and horned cattle 3,000,000.

In this hasty sketch of the Minister's report (a book of 542 pages) our readers may well guess all the inferior provincial items we have been obliged to skip, nor should we have paid so much attention to this 'memoria' but for private information which we have received from parties who have recently gone over that province, and who assure us that, like many other parts of this Republic, Corrientes is at last wakening up, and the passengers by Lavarello's steamers are found peopling its towns, and even spreading out on its estancias. Englishmen who have spare money, and believe in the future of the Plate, would

THE DISTRESS IN IRELAND.

A numerously attended meeting took place yesterday (in accordance with the notice published by us) at 79 Calle Maypu,

Mr. Carroll in the Chair.

After some preliminary observations explanatory of the object of the meeting, the following resolutions were proposed by Mr. Forrester, seconded by Mr. Casey and unanimously agreed to, viz.—

1. That a Committee be hereby formed to solicit subscriptions from the Irish residents and other sympathisers in the River Plate, with the object of alleviating the distress at present existing in Ireland, and that an account be forthwith opened at the London and River Plate Bank, into which such subscriptions be paid.

2. That the following be members of the Committee, with power to add to their number, and also with authority to nominate Sub-Committees throughout the camp districts for collecting subscriptions, viz.: Dean Dillon, Mr. Forrester, Mr. M. Duggan, Mr. Casey, Mr. Ham, Mr. Kenny, Mr. Carroll and Mr. E. T. Mulhall.

3. That Mr Edward Casey and Mr Carroll be named trustees of the fund, and that they be and are hereby instructed to make fortnightly remittances to Dublin, whenever, in their opinion, the sums collected warrant their doing so.

4. That the amounts thus remitted be entrusted to the Lord Mayor of Dublin, to be distributed under the sanction of the general committee named there, in such manner as may seem most judicious, and most in accordance with the objects for which the funds have been collected, viz: the relief of urgent distress.

5. That a list of subscribers be published here from day to day in the English papers.

The following subscriptions were announced before the meeting separated:—

In accordance with the first and fourth resolutions an account has been kindly opened by the London and River Plate Bank, where any further subscriptions will be received direct, on behalf of the trustees. Subscriptions will also be taken charge of for deposit by Mr Carroll, 79 Calle Maypu; Mr Edward Casey, 82 Calle Reconquista, or the other members of the committee.

The Committee will meet to-morrow at eight, p.m., to nominate Sub-Committees for the several camp districts, and to take such other steps as may best secure the necessary publicity for so praiseworthy an object, convinced as they are that it only needs being made known to be liberally supported; meanwhile we most earnestly urge upon any of our subscribers who may desire to contribute to do so without loss of time, as by the latest newspapers from home we fear the distress is greater and more widespread than we had before imagined.

We conclude by wishing that the anticipations formed by some of those who attended yesterday, viz., that a *million dollars* would be contributed by the Irish *alone*, within one month, may be fully realized, and that their proverbial generosity, where any *charitable project* is in question, may be again prominently shown.

Subscriptions, as will be seen by the resolutions, are not intended to be confined to Irish sympathisers alone. Charity knows no national distinctions.

The Valparaiso's Mails.

London, Dec. 31st.
Paris, January 3rd.

Sir Stafford Northcote presided last evening at the annual dinner of the Exeter Licensed Victuallers' Protection Society and Benevolent Institution. In giving the toast of 'The Army and Reserve Forces,' he referred to the recent campaigns in South Africa and Afghanistan, paying a high compliment to the troops, both European and native, which

ing the toast of the evening, 'Prosperity to the Society and Institution,' the Chancellor of the Exchequer spoke of the great evil of intemperance, which, he said, could hardly be exaggerated. Although not in favour of rash revolutions, yet he considered something should be done to check the indiscriminate licensing of beerhouses.

A very heavy gale, approximating sometimes in the violence of its gusts to a hurricane, was experienced over the greater part of the United Kingdom yesterday. Thunderstorms were frequent, accompanied by exceedingly heavy showers of hail, sleet, snow, and rain. Many minor accidents are reported on land, but it is feared that shipping must have suffered severely.

Mr James Samuelson addressed a Liberal meeting, held at Preston, yesterday, in honour of the 70th anniversary birthday of Mr Gladstone, He paid a high tribute to Mr Gladstone, whom he regarded as the 'inevitable, the indispensable leader of the Liberal party.'

Mr David MacIver, M.P., was present at a soiree last night in connection with the Birkenhead Conservative Club, and expressed a confident hope that the electors would not allow the representation of the borough to fall into the hands of the Liberal party at the forthcoming general election.

We have no additional facts to publish this morning which can throw any light on the actual cause of the great Tay Bridge disaster, or the extent of loss of life. There is much speculation on the former point, but only a thorough official inquiry is likely to clear up the difficulty. By the most strenuous efforts of one of the divers, the whereabouts of the wrecked train has been ascertained, he having discovered the first-class carriage. It is surmised that some of the carriages may have become submerged in the shifting sands known to abound at the bottom of the water into which the train was plunged, and if that be the case there is a possibility that but few remnants of the wreck will ever be brought or washed to the surface. The same uncertainty, of course, still prevails as to the exact number of deaths, but there are probably close upon 100 people drowned. A subscription list in aid of the sufferers has been opened in Dundee, and generous donations will doubtless flow in. The Prince and Princess of Wales, following the good example of the Queen, have publicly signified their profound sympathy for the sufferers; and that great-hearted woman, Lady Burdett Coutts, has done the same. The body of the old lady which has been washed ashore was yesterday identified as that of Annie Cruickshank, aged 60, a servant in the employment of Lady Baxter.

The colliers of St. Helen and district have decided to imitate the action of Wigan miners in seeking an advance of wages and the adoption of a sliding scale. Notices expiring on the 14th January are to be sent to the St. Helens employers, couched in similar terms to those issued in Wigan district.

A serious crisis is impending in the cotton trade. An influential meeting of Lancashire, Cheshire, Yorkshire, and Derbyshire employers was held yesterday in Manchester, when it was resolved to organise in order to resist any further demand for increase of wages. The employes are about to take steps for strengthening their organisations in order to secure what they consider is their due.

THE NEW GAS DISCOVERY.

The gas consumers of Buenos Ayres, who pay 140 m/c per mil feet of gas, will read with pleasure the following from the *Times*, which shows that next year we shall have gas at five paper dollars per mil pies.

"December 28th

"Spending Saturday and Saturday night at Menlo-park with Mr Edison, I thoroughly examined his inventions in electric lighting, comprising four particulars—generator, lamp, meter, and regulator—and providing, in my opinion, a complete substitute for gas. The light produced will be both cheaper and better than gas, being more regular and emitting so little heat that there is no danger of fire. Some of his lights are purposely fixed amid the most inflammable material. I tried igniting paper by them, but the paper remained unscorched. About 60 lights were burning. On Saturday night I saw them burn seven hours. Two have been burning continuously for ten days without injury to the baked cardboard horseshoe in the little glass globe which furnishes the light. Cardboard seems sufficiently durable, successfully resisting quite rough usage, such as dropping, shaking, turning the current on and off thousands of times, and raising the intensity of light to that of 400 candles. All the arrangements are simple. Mr Edison will put about 800 lights at Menlo-park, while the inventions immediately go into practical operation in New York city. The globe containing the horeshoe is exhausted to one-millioneth of an atmosphere by the Sprengel pump, measured by the M'Leod flange. By successfully dividing the electric current Mr Edison gets individual lamps of 16-candle power, each lamp having 100 ohms resistance. Light is turn-

ated with the same ease as gas is, while the current can be transmitted on wire as small as No. 36. The central regulator maintains an even current, while the meters accurately measure the supply furnished to each consumer. Mr Edison finds that the best generators are of five to seven horse power, each one-horse power maintaining eight lamps. Each lamp costs about one shilling to manufacture, while a supply equivalent to 10,000ft. of gas can be produced for ten pence or less. Mr Edison calculates the cost of furnishing light thus—the consumption of 3lb of coal in a steam engine will maintain eight to ten lamps one hour. Mr Edison's system also furnishes electric power for small industries such as running sewing machines. Mr Edison's light is bright, clear, mellow, regular, free from flickering or pulsations, while the observer gets more satisfaction from it than from gas. Mr Edison lights at Menlo-park dwellings, offices, desks, street lamps, also laboratory and workshop, making it available for every lighting purpose for which gas is used. I ate my supper and wrote a draft of this telegram by Mr Edison's light last night.

FOMENTO OF BARRACAS CO.

The following is the report of the Directors of the Fomento de Barracas al Norte, read and passed at the meeting of the shareholders on the 28th January, 1880:—

The report corresponds with the half year ending the 30th January, 1879. The traffic returns show a healthy increase, and the roads are in good condition. The expenses for new materials purchased have not exceeded $f.108.29.

The following comparative table will give an accurate idea of the traffic during the last year:—

July to Dec:	Receipts	Expenses	Product
1874....	$293,669	$152,888	$140,778
1875....	342,938	151,005	191,933
1876....	364,787	138,210	226,577
1877....	413,257	165,233	248,024
1878....	393,094	155,434	237,660
1879....	422,620	153,973	268,647

Thus the receipts have increased and the expenses have been reduced, when compared with the previous half-year. The nett profits would have been larger but for the unfortunate death of the manager, Mr. Rossberg. He died suddenly, and his accounts presented a deficit of $f.1,137.02; and up to the present the Committee have not been successful in obtaining the money from the family of the deceased. Mr. Johnston H. Higgins, who put the books in order, has been paid $f.200 for his trouble. In view of this unsatisfactory affair, the Directors have agreed to limit the powers of all future managers, and make a reduction in all expenses. The profit and loss account shows a balance of $10,213.37, and the Directors propose paying a dividend of 3 per cent or $7.6 per share, leaving a balance of $f.43.36 to be passed over to this year.

Mr. G. Born has been appointed to revise the accounts, and his signature is at foot. Everything promises well for the Company's future prosperity.

According to the statutes, Mr. W. Bertram and Mr. C. H. Krabbe retire, but are eligible for re-election.

B. Ayres, Jan. 20, 1880.

C. Santa Maria, E. V. Bunge, W. Bertram, C. Krabbe, A. Meyer.

N.B.—The dividend is payable at Mr. Bertram's office, Calle Cuyo No. 105 (altos) on the 29th inst.

V. B: JORGE BORN

Buenos Ayres, 31st Dec: 1879

THE GENERAL BROWN CLUB

The identification of this club with many useful camp reforms, and its publication of a political programme in which the curing of the sheep scab holds a pre-eminent place, has fledged the arrows of a pack of Parthian politicians who view in the repudiation of the list promulgated last Sunday a motive for supposing that the sheep whose cure was one of the chief objects of the club will meet with the same oblivion as the principles upon which the club was first started.

The friends of this young club must deplore that party spirit has so soon found its way into its councils, and that its directors allowed individualism to assert itself so painfully before the drop scene of the Victoria. We conceive that the adherence to the original list as framed by the board was really the only step left the tyros of this new political impersonation, and that had the club adhered less to neutrality it would have incurred less political gall and opprobrium.

As an experiment in our humdrum political existence, the Brown club enlists the sympathy of many who would rather put their name on the back of a bill in the Provincial bank to oblige a friend than figure with Mr. Negrotto or Mr. Murphy in last Sunday's meeting but; the efforts of the sons of foreigners to coin from their parentage and patrimony some higher political medal than that granted to the sheepfarmer, challenge the approval of all who have the interests of the country and the permanence of our seed in the Plate at heart.

'He that is not with me is against me,' is the motto to be hung up in every club room of this town, and the foreigner, or his son, who stands back from the political ring and joins neither side, invariably incurs the hostility and contempt of both, and herein we have the key to the present 'locus standi' of the foreigner in Buenos Ayres. To remedy this and make some political stand in the country was the 'raison d'etre' of this young club, but scarcely has it made its 'premier pas' when we find it cut up most unmercifully by the very papers that blessed it at its birth.

The subjoined skit certainly does not merit a translation, save to show the animus of some of the quondam friends of the General Brown Club; but let the founders of this association stand by their own colors and be not ashamed of the material character of proposed reforms, possibly more meritorious than a tissue of scheming theories unknown to this country when old General Brown flourished. The *Patria Argentina* says:—

"The Committee of the General Brown Club embodied its principles in a 'platform,' and this drawing-room arrangement, quite new in this country, was considered a curiosity. It tickled the public fancy to see a political club with 'Cure the Sheep Scab' and other bucolic naiveties inscribed on its banner; and a crowd of Criollos, out-and-out Federals, Roquista-Federals and Bœotions, headed by the estimable poet Martin Fierro—the cabbage-head of the Argentine Parnassus—rushed to look at it.

"By means of these unexpected elements a regular Salamanca row was got up in the innocent General Brown Club, the result being a species of ball-alley list of candidates, which the Committee of the Club now repudiates.

"We may fairly say that the rush of candidates broke down the platform, and principles were kicked under the table. The upshot of it all is that the sheep lose all hope of the reform promised them, and, as usual, come out of the business cleanly shorn, for the especial benefit of the shepherd, that old patriot Felix Frias.

"Sic vos non nobis vellera fertis oves."

EDITOR'S TABLE.

The steamers Equateur and Valparaiso do not bring any news of unusual importance. A thaw had commenced in parts of France and Germany, and the Rhine and Moselle had overflowed. The British Ambassador at Constantinople broke off official relations with the Porte in consequence of a Turk who had translated the Bible being condemned to the sack and bowstring, but by latest accounts the quarrel had been patched up by the mediation of the Austrian and German Ambassadors. The conclusion of a commercial treaty between Russia and China has created a prodigious sensation at Shanghai, the more so as the Khan, or the Grand Llama, or Grand something else of Thibet obstinately refuses to allow British merchants a legal residence in that country. Great Britain is about to occupy the island of Massaouah, in the Red Sea, in case war should break out between Egypt and Abyssinia, and the Red Sea squadron has been reinforced.

The Cloth Factory, which has had such innumerable escapes from total smash, appears now to be slowly recovering. The report just published shows that it has absolutely paid off all its debts except that to the Provincial Bank, and has $56,000 m|c cash on hands. The profit on the cloth made for the army is 20 per cent.; it is all pure wool and far more durable than imported cloth.

Messrs. Moore and Tudor publish an important advertisement in another column. Sheepfarmers should read what Mr. Peter Whelan of Rodriguez says about the Glycerine Dip as a cure for scab.

The Rev. Father Davis leaves town to-day for Lobos. The Venerable Dean Dillon is expected to return from the camp to-day.

The wonder of the day is the Fountain Pen, for which Mr. John Samson is agent here, and a few of which Messrs. Mackern have on sale. Considering that these wonderful pens hold their own ink for a week, and have pure diamond nibs which can never wear out, they are not dear at $180 or $200 m|c. each; they are, besides, a nice ornament, and equally useful to the merchant in his counting house and the lady in her boudoir. As for editors' use, we tried one of them yesterday, and found it difficult to stop writing. In the 'currente calamo' way, these 'Fountains' are unmatched. In our next issue we will give full particulars of the Fountain Pen and several other curiosities for which Mr. John Samson is agent in this market.

Our colleague the *Patria-Argentina* is bitterly sarcastic about the General Brown Club, and other native papers which cheerfully rocked its cradle now call it a naughty child. This arises from the momentary derangement of the tiller machinery of this new political barque, causing it to yaw considerably; but we believe all is now right again. The Club deserves support, as it has undertaken, amongst others, two pre-eminently important things, viz., to cure the scab in sheep and the still worse political scab which is fast eating away all our boasted republican blessings. If some patriotic Moore and Tudor should invent a Dip in which the politicians of the country could be periodically soused, it would greatly assist the General Brown Club in the arduous task of reform which it has laid out for itself.

The Cordoba papers announce the death of Mr. J Jardel. The unfortunate gentleman was found dead in an arm chair by the chambermaid. There was not a copper in his pocket and a subscription was raised to bury him.

We perceive that the National Government has refused the request of the Commissioner General of Immigration for a small sum wherewith to buy beetroot seed, to see how it will answer in the colonies for making sugar. Unless it be in the way of Protection to the sugar men of Tucuman, of whose cane fields the beet root will yet become a formidable competitor, we cannot account for the Government's refusal. Private parties will, however, try the beetroot, and we may expect to hear of it next year. Everybody knows what a small beginning the enormous beetroot sugar trade of France had.

The French papers say that when the Empress Eugenie passed through Paris on her way to her dying mother at Madrid, she stopped for a few hours at the Duchess de Mouchy's house. She refused to see Princess Mathilde, but admitted Prince Napoleon for half an hour; she told him she would have nothing to do with politics, as her dead son would be her sole thought till she died. When Prince Napoleon came out he was evidently deeply affected, a most unusual thing for His Highness. King Alfonso was in waiting at the railway station at Madrid, and communicated to the Empress the sad news of her mother's death. Grief has so terribly changed the Empress, that those who saw her when she was the loveliest woman in Europe would not recognise her now.

Another Lottery. Corrientes has now entered this profitable (for the empresario) field with a lottery which has a prize for every ten tickets, a much higher ratio in favour of the public than either the Montevideo or Uruguay Lotteries, which only give a prize to every 14 numbers. What fortunes Lottery proprietors must make? Nothing can beat a Lottery for making money except a Mint and a 'rouge et noir' bank. The trio of lotteries just referred to now suck from Buenos Ayres all the money which formerly used to go to its charitable institutions through its own Lottery. Another of the blessings of the new Constitution.

An enterprising gentleman has applied for a Patent for a new kind of bucket for emptying those fragrant receptacles called 'sumpts.'

There is a rush every night now to the German cafe, at No. 121 Suipacha, to hear the orchestrion, a German instrument which it is impossible to distinguish from a full band, and which plays 30 popular airs. We hear it is a genuine marvel, unlike most River Plate wonders, which are generally things that Europe has grown sick of.

There was a naval review yesterday of all the Argentine men of war in the Roads. The Minister of War and Marine was present.

A six oared boat of the Marina Club went to the bottom at the Boca the other evening while an equal number of young gentlemen were taking a post-prandial row. A sunken anchor did the business. The crew were a full hour getting out of the water.

The Electric Light, coached by Professor Edison, has come up smiling for another bout with Gas. The London share list shows first blood for the Light. See another column.

Old Cordoba is waking up. The latest news from that learned city is that a company is being formed there to export fat Cordobese beeves to Europe, all alive O! Wonders will never cease.

The Belgrano Tramway Company have come to the conclusion that 'second thoughts are best' in reference to the five dollar return ticket business. A return ticket for Belgrano is now issued at six paper dollars, available the whole day of issue. Better have stuck to the five dollars; the extra dollar will deter many people of slender purses. The cars must run, and it is better to run them full than empty or half full, but it takes a deal of time, trouble and talk to persuade the managers of some carrying companies of this rudimentary principle of their trade.

The servants at the National Government House have all got new clothes, liver coloured—the most suitable colour for a livery.

A train on the Western Railway cut a man clean in two on Saturday last, between Flores and Caballito.

Dr. Gould, the distinguished Director of the Cordoba Observatory, announces a total eclipse of the moon for Monday next, from 8 to 11 p.m.

The 'Blondes and Brunettes' is the name of a Ladies' Rights Society in the town of Mercedes. They are not politicians, however, and the only rights the fair members claim are plenty of partners at a ball, the right of gossip, and the right of search—ing for a husband. Right you are girls. The Bs. and Bs. gave a magnificent ball last week, at which all the Bachelors in the place were present.

It is said that the trade of Salto, Banda Oriental, with the Upper Uruguay is increasing so much that the Santa Rosa Railway Directors are about to make an effort to push the line across the river Jacuy, which is the main obstacle on the road from Santa Rosa.

Next week a new electioneering organ will appear, to be called *La Paz*, its Presidential candidate being Dr. Bernard Irigoyen.

The enchanting suburb of Moron seems indefatigable in the musical and dramatic way. Last Sunday a most brilliant concert was given there to increase the fund for completing the church, and next Sunday there will be an amateur dramatic performance for the same laudable purpose. An Estudiantina, including Messrs. Bosch, Williams, Muñiz, Castrelo, Carbone, Rosas, Pearson and V. Gomez will open the ball, after which the two-act drama Don Juan Espinel will be given. Performance commences at 4 o'clock.

The efforts to change the route of the Corso during Carnival have failed. The Municipality said 'non possumus,' so the procession will go the old way. From present appearances this year's Carnival will be ineffably seedy, and 'en revanche' there will, of course, be more water throwing.

The class of emigrants now arriving from Italy is in great part, as the *Patria* admitted last week, the very flower of Italian labour. Mr Dillon sent on Sunday to the Caroya Colony in Cordoba 21 Italian families whose united capital in cash is 40,000 francs, and they have also valuable implements worth 60,000 frs. This is the stuff to push the country ahead. What a change from a few years ago, when shoeless shoeblacks and bootless organ-grinders were Italy's Grecian gifts to us in the emigration way.

The gold market ruled quieter to-day than yesterday, and the business was smaller. Gold opened and closed at 31.75, and for March 2o,ooo at 31.90.

Cedulas advanced ½ for the end of the month and for cash 82¼. National Bank shares firm at 59⅞.

The money market is somewhat affected by impending elections. There is a rather nervous feeling in town, although we believe there will be no disturbance. Nevertheless brokers of various gremios report that business is stopped for the moment.

Mr. J H Carter, purser of the Royal Mail, was welcomed on 'Change. The Guadiana is all filled, and cargo is so freely offered that many parties think freights will advance.

National Bonds were done to-day at 80, but as yet the market is in the dark as to London quotations. By way of Rio we know that on 22nd inst the Public Works loan was at 87½ in London, but the fall in the stock is said to have occurred since.

The shipment of sovereigns to Rio from Montevideo is spoken of by exchange brokers, who say that the rate of exchange here admits of the business, and a bank that has made some shipments made good profits.

The French packet's mails bring advices of importance; on the 4th Jan. there were 358 vessels all bound for England with cereals, also 35 wheat cargoes had passed the Bosphorus, 17 for Marseilles and 18 for other Mediterranean ports.

A Bolsa meeting was held yesterday in Montevideo, when it was proposed to reduce the subscription from 3 pats to 2 pats, on the plea that many could not afford to pay such a high subscription, which was opposed, however, on the ground that its present revenue was barely sufficient to cover expenses. Mr Becker moved some important improvements in the Reglamento, which motion was carried and a Committee named to study the reglamentos of European Bolsas, to guide them as to the reforms necessary.

The sale of 2,000 potro hides in Montevideo is reported at 1.80.

Mr. Gilmour, Argentine Consul at Liverpool, took leave of his numerous friends today; he leaves on Sunday for Santos, and we are happy to say takes the most pleasant impressions about the Plate. Except Dom Pedro, Emperor of Brazil, we know of no one who travels faster and sees more than Mr. Gilmour.

Discount brokers report that all the banks with the exception of the Provincial Bank have stopped discounting. At the Provincial Bank yesterday there was a very heavy amount of pagares offered, but the Bank could only discount about 4 millions.

The gold brokers attach much importance to the arrival of Dr Del Valle from the Interior; many say that he holds the key to everything in the way of the election.

Our special Boca reporter gives the following:—

"German barque Emilie Kahl entered with lumber for Dryadale.

"Nova-Scotian barque Mary Agnes, passing out.

"We are glad to hear that Capt. Bowitz, of Norwegian brig Kong Kaare, is at last chartered to load bales, horns and perhaps hides in Boca for Hamburg, charterers Bohegan, Levy and Co.

"A very sad accident occurred this morning in front of my office about 8 a.m. A man was crossing in his canoe from the oppose side of the river with his little son a boy 3½ years old. When about mid-stream, Mr Huergo's small steamer was noticed coming along at a great speed, and all efforts made by the poor man to get himself and son out of danger were fruitless, the steamer striking the canoe right amidships, sending both father and son to the bottom; the father to rise again, but the son to find a watery grave. I saw the father after his immersion, very much cut up, and not knowing how to break the sad intelligence to his wife. In a crowded river like this I should suggest that steamers be not allowed to travel, but at a very slow rate, thus avoiding many accidents. I have often noticed this same little steamer, when without barges in tow, travelling at a rate of speed which the Port Captain ought certainly to put a stop to. The body has just been found, two hours after accident; the poor little chap I have just seen, with a deep cut on his upper lip, which, I expect, was caused by concussion with steamer, stunning him and hindering him from coming to the surface again.

"Maritime news very dull, owing to low tide."

The public land question, owing to the very able efforts of our colleague, the *Prensa*, has become regarded as the public villainy question, and Governor Tejedor and Minister Balbin have taken such very decided steps to clear up the matter that it is evident they appreciate our colleague's efforts. In this morning's *Prensa* we find a lengthy decree naming a special committee to at once investigate the charges made against the favoritism and swindling that is alleged to have been going on in the purchase of public lands. We regret we have no room for this Government edict, but we give its import and compliment Minister Balbin on so excellent a measure. At the rate things were going on in the land business, soon there would not be an acre of public lands left to the public; everything that the birds fly over from the Tandil Rocking stone to Cape Horn was passing into the names of parties who by their dexterity with red tape denounced the lands without the slightest intention of colonizing or settling, or in fact doing anything with them. In all the immense tract of the Tres Arroyos there is not even a half a league to be got for a poor sheep or cattle farmer under 150,000 m|c. the league, nearly 3 times the Government price. The present step of the Government will doubtless do much good, and the lists of land sales published the other day have opened the eyes of the public to the gigantic business that has been going on; meanwhile the letter from Mr Keen's mayordomo was a very stiff paper and shows how dear the public lands, which Mr Keen bought, have cost him; 10,000 head of horned cattle is no trifle. Now we have no Indians on our frontier, so that parties purchasing will incur none of Mr Keen's risks or losses. What the public much requires is a list of all the public lands held by the Government, the prices at which they can be bought, and when there is any probability of their being surveyed and measured.

The *Investor's Manual* received by the mail, and dated Dec. 27th, 1879, is an exceedingly interesting and useful publication; we recommend it to merchants; it gives a complete summary for 1879 and very minute details about all the principal companies in England. It shows that in the early part of 1879 the traffic on the English railways fell off £70,000 stg. a week, and that Argentine stocks increased 25 per cent in the year. The book, as one of financial reference, is invaluable, and we file it.

We have received from Don Mariano Billinghurst the report of the Argentine Cloth Factory for last year. All the debts due by the company have been paid off with the exception of that due to the Provincial Bank, and the mill has limited its work to the manufacture of soldiers' uniforms, an exceedingly good and lucrative trade, but for the discounts and shaves that have to be paid on the Government bills; nevertheless the business leaves a profit of 20 per cent to the shareholders. The present board works on a mere capital of 405,176 m|c. employed as follows:—

Purchase of materials	185,400
Manufactured cloths	287,230
	472,630
Less debts paid off	67,494
Net capital	$405,176

The following shows how in a year the capital has nearly doubled:—

Materials bought	109,176
Stock on hand cloths	456,447
Government bills to receive	159,358
Cash	56,974
	$781,955

These figures should be published in Bradford and Dublin, not in Buenos Aires, and the first English manufacturer that migrates to the Plate with his plant will make a fortune as great as Titus Salt.

The Italian steamer Sud America landed today 400 Italian emigrants; few people in town knew anything of the matter save our Paseo Julio people; meanwhile we note in the English papers an awful flare-up at the landing of 80 Russian emigrants returned from Brazil at Southampton. Had these Russians come here they would have escaped such pauper notoriety and have been welcomed by Mr Dillon. Major D'Arcy's letter published this morning is the most sensible letter we have yet read on the distress in Ireland. We entirely agree with the Colonel; what they want in the West of Ireland is a couple of Lavarello's steamers, and every poor family in Connema a could be started in this country, if the proper steps were taken, and the Irishmen of the Plate put their shoulders to the wheel. The Millionaire landed proprietors of Connemara are too poor to raise a loan or expend money on public works. No wonder that things are as they are in Ireland, and yet the people at home consider Ireland ten thousand times a better country than the Plate.

The following advices have been received from Glasgow and may interest the market here—

"A Hitch at a Trial Trip. On Saturday the trial trip of the new saloon paddle-steamer Cosmos, 1000 tons and 250 horse power, built by Messrs. Inglis, Pointhouse, for the River Plate, was fixed to take place. The steamer reached Greenock all right, and after a successful trial on Friday lay alongside Prince's Pier waiting the arrival of the numerous invited guests. Notwithstanding the boisterous character of the weather a large company arrived during the forenoon at Greenock from Glasgow by rail and went on board, but unfortunately a trifling defect was discovered in the starting gear of the engines, when it was prudently decided to remain at the quay, where the sumptuous fare provided was no doubt more heartily enjoyed than had it been served below the Cloch, where the sea was running very high, in consequence of the fierce gale which prevailed. The Cosmos left Greenock yesterday in tow of two tugs for Glasgow where the necessary alterations will be made."

THE GLYCERINE DIP

(HARDWICKE CUERIN AND CO.)

EXTRACT FROM 'THE STANDARD' ON 'CHANGE, JANUARY 6TH 1880.

"The splendid sale in the Plaza Once this morning by Messrs. Duggan, was the talk of on 'Change. They sold Mr. Peter Whelan's Wool from Rodriguez, 3,500 arrobas, at the magnificent figure of $125 m|c. Perhaps the best Wool sale made this season."

Letter from Don Pedro Whelan to Moore and Tudor

Referring to the above.

Dear Sirs,

I have had great experience in curing Sheep, having tried all the remedies for Scab, and I find Moore and Tudor's Glycerine Dip to be the best; much, however, depends upon the owner of the Sheep using the Medicine properly.

As a proof of the above I have obtained the highest price in the north for my Wool.

I would advise any Estanciero who wishes to have good Wool and sound Sheep to use the Glycerine Dip.

You have my consent to publish this letter.

Yours truly
